

This book by a distinguished academic and a professional economist from the World Bank clearly demonstrates the significant role played by the real estate sector in inducing the Asian crisis; the linkage of the real estate sector to the general economy; the causes of real estate booms and subsequent busts; and the economic costs of real estate price volatility. The book also includes suggestions for moderating such volatility in the future.

The Critical Response to Ishmael Reed (Critical Responses in Arts and Letters), Studies in the Out-Lying Fields of Psychic Science, Treasury of Courage and Confidence, Drinking Water Quality - Taking Responsibility, Field Manual for Water Quality Monitoring: An Environmental Education Program for Schools, Cottonmouths (Really Wild Life of Snakes), Becker Guide, 1983-84 (Private Bank Guide),

Korea: Could a Real Estate Price Bubble Have Caused the Economic Crisis? -- Chapter 6. The Sticky Land Price in Taiwan: Its Causes, Effects, and Future.
