

There's something different about Ethna. She's fond of her husband but she doesn't crave his touch, and what she does crave is so strange and powerful that she can't explain it even to herself. She seems to find an answer when she's kidnaped by a fairy king and plunged into a world of supernatural submission, but then her husband rescues her, and she realizes King Finvarra was nothing like her heart's desire. But she still desires something, and her experience with Finvarra has somehow brought her closer to the truth. She'll just have to be patient, and to explore her innermost depths, before she can find her true calling. Then she'll know exactly what "and whom" she really wants. This story is a sexed-up retelling of an ancient Celtic folk tale with an all-new second act that's twice as titillating as the first.
